We will be directing the LWG to produce the draft final FS early next year after we have reviewed the comments from the NRRB/CSTAG to ensure that any updates based on their review are incorporated. The public comment will be on the RI/FS and PP. After the public comment period, we will finalize the FS prior to issuing the ROD.

Hope that answers your question.

**Subject:** FS question

Hi Kristine.

At what stage in the process does EPA direct LWG to finalize the FS? I seem to recall you saying that the FS isn't finalized until after comments are received on the proposed plan because those comments may result in changes to the FS. Is that correct? If so, would EPA direct LWG to finalize the FS around the time that the ROD is issued, or would it be before then?

Thank you.
